

TRP Brake Discs for Trailers

Maximum brake performance

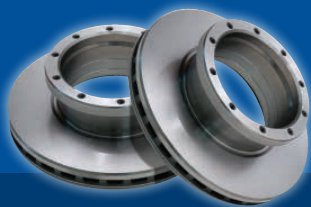

TRP offers a comprehensive range brake discs for all popular trailer axels. All products have been designed for maximum brake performance. Independent tests have been carried out to deliver the highest possible safety for every brake application. TRP Brake Discs combine high brake performance with a long service life.

Features and benefits...

- Premium design
- Maximum brake performance
- Comprehensive range
- Complete brake solution

TRP Brake Discs for Trailers

Product Information

Trailers are widely used for various transport solutions. Trailers used for distribution operate in the busy city traffic, trailers used for construction operates with high load on bad road conditions and trailers used for long haul transport operate on highway at maximum speed. To make sure every truck driver can rely on their trailer, a properly working braking system is of crucial importance. TRP offers the best of both worlds, an economical solution with maximum brake performance.

Did you know

Brake discs are under extreme high load during brake applications? Brake disc converts kinetic energy by friction into heat. Temperatures can rise up to 800°C during an emergency stop in just seconds! After the brake application the brake disc cools down to outside temperature which can be far below 0°C. This situation can lead to disc cracks! That is why TRP offers a durable and reliable range of brake discs.

Premium design – improved heat dissipation

- Equal heat distribution – reduced risk on hot spots
- Pillar vented design for improved airflow – reduced risk disc cracks
- Improved heat transfer – long service life

Maximum performance – quality guaranteed

- Manufactured and designed in state of the art facilities to meet most stringent automotive quality standards
- Tested and approved to meet highest brake performance
- ECE R90 homologated

Comprehensive range

TRP offers a full range of brake and maintenance parts, brake pads, wear indicators, brake disc and caliper repair kits. Low repair cost guaranteed with a maximum vehicle uptime.

Features and benefits...

- Comprehensive range for all popular trucks – one-stop-shop for your convenience
- Designed and tested for maximum brake performance – durable and reliable
- ECE R90 approved for a guarantee of brake performance – best in class quality, maximum safety
- TRP Brake Parts – low repair and maintenance cost guaranteed
